

Investment Strategy & Objective

Ethical investing in global property holdings to achieve above average long term risk adjusted returns.

The Fund invests in listed property entities. These are expected to predominantly own industrial, office and retail property but can include other activities (such as trading and development) and other types of real estate assets (such as residential property, medical facilities, and storage units).

Investing Ethically

Firstly, avoid harm: to people, planet and animals. We do this via our exclusions and exceptions process when selecting and monitoring investments.

Next, we aim to do good. We consider Environmental, Social and Governance (ESG) data and tilt our portfolio towards positive investment themes (such as Renewable Energy, Water & Community Housing). We're particularly seeking companies that meet our financial investment criteria alongside our ESG focus and sustainable themes. We're a signatory to the UN Principles of Responsible Investment and aspire for our investment decisions to contribute to the UN's Sustainable Development Goals.

Climate Change. We believe climate change is a significant threat to our communities and ecosystems and encourage companies to transition to a lower carbon world. We strive for our investment decisions to drive down the overall emission profile of our fund portfolio.

Please refer to our Ethical Investment Policy for more details.

Investor Suitability

The Global Property Fund is suited to an investor with a very high tolerance to risk and a minimum investment timeframe of 10+ years.

The strategy has a majority weighting to listed property with the rest in cash. Consequently, there will be some volatility in the value of your investments which can result in low or negative returns on occasion.

Risk Indicator

See the Pathfinder website for further information on the calculation of the risk indicator.
