What are the risks of investing?

Risk indicator for the Pathfinder Ethical Trans-Tasman Fund

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the last 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (**PDS**) for more information about the risks associated with investing in this fund.

Also, see *Note 1* for information on the risk indicator calculation.

How has the fund performed?

	Past Year
Annual return (after deductions for charges and tax)	25.61%
Annual return (after deductions for charges but before tax)	25.92%
Market index annual return (reflects no deductions for charges and tax)	-2.95%

The market index annual return is based on a 50/50 composite of the NZX50 index and the ASX200 index 50% hedged to NZD (since 15 July 2020). Additional information about the index is available on the offer register at www.business.govt.nz/disclose (search Offers, using Offer OFR10780, Documents, Other Material Information).

What fees are investors charged?

Investors in the Pathfinder Ethical Trans-Tasman Fund are charged fund charges. In the year to 31 March 2020 these were:

	% of net asset value
Total fund charges*	1.00%
Which are made up of:	
Total management and administration charges	1.00%
Including:	
Manager basic fee	1.00%
Other management and administration expenses	0.00%

*All amounts exclude any applicable GST

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees on the offer register at www.business.govt.nz/disclose for more information.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Angela had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Angela received a return after fund charges were deducted of \$2,592 (that is 25.92% of her initial \$10,000). Angela did not pay any other charges. This gives Angela a total return after tax of \$2,561 for the year.

- 1) **Risk indicator:** This risk indicator is not a guarantee of a fund's future performance. Market index returns as well as the fund's actual returns have been used to fill in the risk indicator because the risk indicator is calculated using returns data for the five-year period ending on 30 September 2020. Market index returns have therefore been used for the period from 1 October 2015 to 15 July 2020 when the fund was not in existence or available for investors, and actual fund returns have been used since then. As a result of those returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.
